

## Donation Offer— Acorn Stairlift Chair

The son-in-law of a local veteran who recently passed away contacted us to let us know about his loved one's Acorn stairlift that he would like to donate to a veteran in need.

This stairlift was purchased and installed in the veteran's home only six months ago.

This stairlift was designed for a staircase with 15 steps, an initial curve to the left from the ground floor, and a final turn to the left at the top of the staircase.

Therefore, there will be costs involved for Acorn Stairlifts to install this stairlift in its new home, as well as any adjustments that are made to the stairlift's railing system.

This stairlift has been uninstalled and is ready to go to its new home.

If you or a veteran you know are interested, please contact our Veterans Connection office at **805-482-6550** and ask for Charles.
